

The ultimate vending bargain

Backed by SandenVendo's experience in the vending industry including the patented top-notch cooling technologies applied on each vending machine produced, Bottle&Can Design Flexstack is an automatic vending machine developed to handle 1L and 1.5L bottles in the most effective and flexible way.

Thanks to an advanced cooling system that exploits HC (R290), a natural and eco-friendly refrigerant solution, B&C Design Flexstack is a simple, smart automatic vending machine that minimizes overall maintenance.
