

Compact Vending, but Make it Cool!

SandenVendo's compact vending machines range expands its offer with UnoCool+(plus), the new, eco-friendly, and refrigerated tabletop solution created to allow more facilities to benefit from the service of a vending machine.

The tallest machine among the tabletop spiral models, yet always space-saving in a small footprint, UnoCool+ will accommodate products up to 230 mm in height in a 3-shelf configuration and 170 mm in a 4-shelf one.

Install it in pubs, office spaces, meeting rooms, sports facilities, and hotel receptions and load it with heat-sensitive products such as chocolate, protein drinks, or even cosmetics.
