

DO IT SMART, BACK-LOAD IT

Load the vending machine directly from inside your shop!

Forget sudden temperature changes, reduce your workload, and keep the highest hygienic standards: the new Back-Loading system is designed to ease the operations of butcher shop professionals by allowing the product loading process directly from inside the shop into the vending machine.

This versatile system can accommodate a wide range of products, making it ideal for pharmacies, bakeries, and other retail environments looking to extend their merchandising options.
